ISG Search Inc

229 Yonge St,

Toronto, ON, M5B 1N9

Re: Cyber Security Engineer

Dear Hiring Manager,

I am excited to apply for the Cyber Security Engineer role at ISG Search Inc, which I discovered through LinkedIn. With a bachelor's degree in computer engineering, ongoing postgraduate studies in Cybersecurity at George Brown College, and hands-on experience with SIEM platforms, incident response, and automation, I am eager to contribute to your mission of advancing best-in-class cybersecurity practices within the financial sector.

In my academic and professional journey, I have developed a solid foundation in SIEM management (Splunk, QRadar, Sentinel), creating use cases, dashboards, and alerts to detect threats effectively. My experience includes conducting vulnerability assessments, threat hunting, and root cause analysis, as well as automating security workflows using Python and PowerShell. Beyond technical expertise, I bring strong collaboration skills, having worked across diverse teams to integrate security measures seamlessly into project lifecycles.

I am genuinely enthusiastic about the opportunity to support your mission of advancing strong, proactive security solutions. Thank you very much for considering my application. I would be pleased to provide further details about my background and would welcome the opportunity for an interview at your convenience. I can be reached at +1 647-504-3816 or SayedEdris.Sadeed@georgebrown.ca.

Sincerely,

Sayed Edris Sadeed
